JUST WHAT THE PATIENT ORDERED

As doctors who live and practice here, we listened to what you want in a hospital experience. When we opened our new Physicians' Medical Center in the fall of 2008, we focused on you and we know you'll agree: this is surgical care the way it's meant to be.

PHYSICIANS' MEDICAL CENTER

Offering our neighbors a new choice for personalized, close-to-home surgical services

SEE A SKILLED SPECIALIST CLOSE TO HOME

Skill is your first priority when you need surgery. At Physicians' Medical Center, in southern Indiana, the proven specialists you count on are close by - in an all-new state-of-the-art facility. Our six surgical suites and three procedure rooms feature advanced technology to support open and minimally invasive procedures for:

- Ear, Nose & Throat
- General Surgery
- Gastroenterology
- Gynecology
- Ophthalmology
- Orthopedics
- Pain Management
- Plastic Surgery
- Podiatry
- Urology

TAKE IT EASY

We designed everything about our hospital to make things easy for you. Your time is important. So we'll work with your doctor to schedule your care promptly. We will minimize your wait before treatment begins. And we'll keep you on time.

We welcome all patients, regardless of insurance coverage. And we're ready to help with any issues of finances or insurance benefits.

FEEL WELCOME

Our warm welcome starts at the front door. Free parking is close to the entrance. A canopy protects you from the weather. Friendly staff greet you and help with any questions. Our comfortable waiting area is stocked with refreshments. All 12 inpatient rooms are private and conveniently located on the first floor. They feature space for a family member to sleep overnight if needed.

WE KNOW YOUR NAME

With no more than four patients to care for, your nurse knows your history and takes the time to talk with you and your family. Your nurse has had additional training for specialized pre- and post-surgical care. All of our nurses have been carefully chosen for their credentials, their skill, and their passion for what they do.

"I felt like I was being cared for by a family member."

Patient at a Prexus Health hospital.

CHOOSE WITH CONFIDENCE

Our focus on excellence in staffing, training and skills translates to the best possible surgical and recovery experience for you. In May 2005, the US Department of Health and Human Services/Centers for Medicare and Medicaid studied hospitals like Physicians' Medical Center. They concluded that similar hospitals provided a superior quality of care. Their report cited such measures as fewer complications, lower mortality rates and high patient satisfaction.

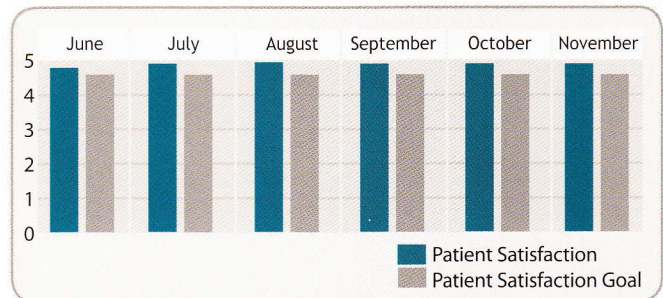

WE AIM TO PLEASE

Our hospital supports our staff and doctors so they can do what they do best: care for you. Doctors can stay focused on their specialty, with time to explore new clinical approaches. Working with the same skilled professionals enables doctors and nurses to develop a strong team. We cut out the red tape so it's easy for them to improve our care. Clinical experts, not business people, control our quality.

That kind of setting makes for very happy patients and caregivers. Employees at member centers of Prexus Health typically rate their work experience as superior.

SATISFIED PATIENTS

Patients at member centers of Prexus Health typically say they are very satisfied with their experience, scoring 4.8 or higher on a 5.0 scale.

GOOD FOR PATIENTS

Physicians' Medical Center in southern Indiana means new career opportunities for excellent nurses and other clinical staff. We're creating over 100 new jobs. We're paying payroll and property taxes that support local schools. Our hospital promises to attract more well-trained doctors to southern Indiana. High quality physicians seek to develop a rewarding surgical practice in well-equipped facilities such as Physicians' Medical Center.

Because our hospital is specialized and designed to provide the finest surgery experience, treatment will likely cost you, your employer and your insurance company less. That's why employers are interested in having Physicians' Medical Center in their health insurance plans.

GOOD FOR YOU

Most important, Physicians' Medical Center offers you a close-to-home option for skilled surgical care. You **and** your family can stop traveling for the expertise you need. At Physicians' Medical Center, you'll find the experience, the technology and the friendly staff that define surgical care the way it was meant to be. All about you.
